Programming Innovation

Due to full-featured GUI programming tool, anybody can configure a system easily.

Low-Cost Innovation

LSIS know-how-driven high functions reinforce your cost-competitiveness with economic HMI.

Performance Innovation

High functions and reliability beyond the limit of general compact-sized HMIs can realize system operation at its maximum

When you use **XGT Panel**, you are to experience the followings:

Wire Reduction

Replacing complicated wiring by communication line, it is a lot easier to do maintenance work.

Control Panel Downsizing

Thanks to XGT Panel functioning data display, input, output switch and lamp, control panel downsizing is accomplished.

Cost Down

Since I/Os and analog signals are managed by communication, PLC modules and other related equipment would be needless.
